
INTERNATIONAL MICROBIOLOGY CONTENTS Volume 1 Number 4 · December 1998

EDITORIAL

pdf ▶	Year's comments for 1998	249
-----------------------	--------------------------------	-----

FOREWORD

pdf ▶	Ten years of CIBE Symposia, 1989–1998	251
	Mochales S	

ARTICLES

pdf ▶	The Renaissance of microbiology	255
	Davies J	

pdf ▶	Induction of microbial secondary metabolism	259
	Demain AL	

pdf ▶	Bacterial evolution and the cost of antibiotic resistance	265
	Lenski RE	

pdf ▶	Evolution of the clusters of genes for β -lactam antibiotics: a model for evolutive combinatorial assembly of new β -lactams ...	271
	Liras P, Rodríguez-García A, Martín JF	

pdf ▶	Evolution of bacterial resistance to antibiotics during the last three decades	279
	Gómez-Lus R	

pdf ▶	Crucial crises in biology: life in the deep biosphere	285
	Guerrero R	

pdf ▶	Selection of very small differences in bacterial evolution	295
	Baquero F, Negri MC, Morosini MI, Blázquez J	

pdf ▶	The evolution of function: a new method to assess the phylogenetic value of ribosomal sensitivity to antibiotics	301
	Briones C, Amils R	

pdf ▶	Control mechanisms of bacteriophage ϕ 29 DNA expression.	307
	Salas M	

pdf ▶	The foot-and-mouth disease RNA virus as a model in experimental phylogenetics	311
	Fares MA, Barrio E, Becerra N, Escarmís C, Domingo E, Moya A	

pdf ▶	Morphogenesis by symbiogenesis	319
	Chapman MJ, Margulis L	

pdf ▶	Mitochondrial DNA: a tool for populational genetics studies	327
	Castro JA, Picornell A, Ramon M
