

INTERNATIONAL MICROBIOLOGY**CONTENTS****Volume 2 Number 2 • June 1999**

EDITORIAL

- [pdf](#) ▶ Basic research and the challenges of microbiology for the 21st century 59
López R, García E
- [pdf](#) ▶ David Hopwood and the emergence of *Streptomyces* genetics 61
Chater K
- [pdf](#) ▶ A two-year walk with David Hopwood 69
Aguilar A

REVIEW ARTICLES

- [pdf](#) ▶ Synthesis of the bacterial magnetosome: the making of a magnetic personality 71
Bazylnski DA
- [pdf](#) ▶ Bacterial symbioses. Predation and mutually beneficial associations 81
Esteve I, Gaju N

RESEARCH ARTICLES

- [pdf](#) ▶ Characterization of beet necrotic yellow vein furovirus from Spanish sugar beets 87
Suárez MB, Grondona I, García-Benavides P, Monte E, García-Acha I
- [pdf](#) ▶ Dinoflagellate chromosome behaviour during stages of replication 93
Soyer-Gobillard M-O, Gillet B, Géraud M-L, Bhaud Y
- [pdf](#) ▶ Vertical migration behaviour of diatom assemblages of Wadden Sea sediments (Dangast, Germany): a study using cryo-scanning electron microscopy 103
Janssen M, Hust M, Rhiel E, Krumbein WE
- [pdf](#) ▶ Evaluation of *Xanthomonas campestris* survival in a soil microcosm system 111
López NI, Haedo AS, Méndez BS
- [pdf](#) ▶ A rapid procedure for the isolation of plasmid DNA from environmental bacteria 115
Ferrús MA, Alonso JL, Amorós I, Hernández M, Hernández J

COMPLEMENTS

- [pdf](#) ▼ PERSPECTIVES: **Ávila J** Eladio Viñuela (1937–1999), the molecular biology pioneer in Spain p 119 • [pdf](#) ▼ **Aguilar A** The key action Cell Factory, an initiative of the European Union p 121 • BOOK REVIEWS p 125
