

Volume 10 • Number 4 • December 2007

 EDITORIAL		
Piqueras M		
Year's comments for 2007	229	
 RESEARCH REVIEW		
Hashimoto W, Itoh T, Maruyama Y, Mikami B, Murata K		
Hydration of vinyl ether groups by unsaturated glycoside hydrolases and their role in bacterial pathogenesis	233	
RESEARCH ARTICLES		
 Sonakya V, Raizada N, Hausner M, Wilderer PA		
Microbial populations associated with fixed- and floating-bed reactors during a two-stage anaerobic process	245	
 Ruiz-Rueda O, Trias R, Garcia-Gil LJ, Bañeras L		
Diversity of the nitrite reductase gene <i>nirS</i> in the sediment of a free-water surface constructed wetland	253	
 de Andrade BP, Gazzinelli RT, Del Val M, Bruna-Romero O		
Protective immunization against murine cytomegalovirus infection using adenoviruses and poxviruses expressing hepatitis B virus chimeras	261	
 Letek M, Ordóñez E, Fiuza M, Honrubia-Marcos P, Vaquera J, Gil JA, Mateos LM		
Characterization of the promoter region of <i>ftsZ</i> from <i>Corynebacterium glutamicum</i> and controlled overexpression of FtsZ		271
 Ruiz-Pavón L, Domínguez Á		
Characterization of the <i>Yarrowia lipolytica</i> <i>YISRP72</i> gene, a component of the yeast signal recognition particle		283
MEETINGS		
 Skinner N		
The 21st SEM National Congress (Seville, 17-20 September, 2007)		291
 BOOK REVIEWS		295, 296, 298
 ANNUAL INDEXES		299
 REVIEWERS OF 2007		304
