

Volume 11 • Number 2 • June 2008

RESEARCH ARTICLES

- Abreu F, Silva KT, Farina M, Keim CN, Lins U**
Greigite magnetosome membrane ultrastructure in 'Candidatus Magnetoglobus multicellularis' 75
- Folgueira C, Carrión J, Moreno J, Saugar JM, Cañavate C, Requena JM**
Effects of the disruption of the *HSP70-II* gene on the growth, morphology, and virulence of *Leishmania infantum* promastigotes 81
- Cousin S, Brambilla E, Yang J, Stackebrandt E**
Culturable aerobic bacteria from the upstream region of a karst water rivulet 91
- Christie-Oleza JA, Nogales B, Martín-Cardona C, Lanfranconi MP, Albertí S, Lalucat J, Bosch R**
ISPst9, an ISL3-like insertion sequence from *Pseudomonas stutzeri* AN10 involved in catabolic gene inactivation 101
- Ruz L, Moragrega C, Montesinos E**
Evaluation of four whole-plant inoculation methods to analyze the pathogenicity of *Erwinia amylovora* under quarantine conditions 111
- Barragán VA, Aveiga I, Trueba G**
Microbial community composition in petroleum-contaminated and uncontaminated soil from Francisco de Orellana, in the northern Ecuadorian Amazon 121
- Blasco L, Feijoo-Siota L, Veiga-Crespo P, Villa TG**
Genetic stabilization of *Saccharomyces cerevisiae* oenological strains by using benomyl 127
- Hernández A, López JC, Arenas M, Santamaría R, Díaz M, Fernández-Abalos JM, Copa-Patiño JL, Soliveri J**
Xylan-binding xylanase Xyl30 from *Streptomyces avermitilis*: cloning, characterization, and overproduction in solid-state fermentation 133

PERSPECTIVES

- Iturbe U, Peretó J, Lázcano A**
The young Ramón y Cajal as a cell-theory dissenter 143

BOOK REVIEWS

147, 149
