

Volume 12 • Number 1 • March 2009

RESEARCH ARTICLES

- | | |
|---|---|
| <p>Capote N, Bertolini E, Olmos A, Vidal E, Martínez MC, Cambra M
<u>Direct sample preparation methods for the detection of <i>Plum pox virus</i> by real-time RT-PCR</u> 1</p> <p>Termine E, Michel GPF
<u>Transcriptome and secretome analyses of the adaptive response of <i>Pseudomonas aeruginosa</i> to suboptimal growth temperature</u> 7</p> <p>Molina-Guijarro JM, Pérez J, Muñoz-Dorado J, Guillén F, Moya R, Hernández M, Arias ME
<u>Detoxification of azo dyes by a novel pH-versatile, salt-resistant laccase from <i>Streptomyces ipomoea</i></u> 13</p> <p>Leul M, Normand P, Sellstedt A
<u>The phylogeny of uptake hydrogenases in <i>Frankia</i></u> 23</p> <p>Dörner U, Schiffler B, Lanéelle M-A, Daffé M, Benz R
<u>Identification of a cell-wall channel in the corynemycolic acid-free gram-positive bacterium <i>Corynebacterium amycolatum</i></u> 29</p> | <p>Amich J, Leal F, Calera JA
<u>Repression of the acid ZrfA/ZrfB zinc-uptake system of <i>Aspergillus fumigatus</i> mediated by PacC under neutral, zinc-limiting conditions</u> 39</p> <p>Popa R, Fang W, Nealson KH, Souza-Egipsy V, Berquó TS, Banerjee SK, Penn LR
<u>Effect of oxidative stress on the growth of magnetic particles in <i>Magnetospirillum magneticum</i></u> 49</p> <p>del Campo EM, Casano LM, Gasulla F, Barreno E
<u>Presence of multiple group I introns closely related to bacteria and fungi in plastid 23S rRNAs of lichen-forming <i>Trebouxia</i></u> 59</p> |
| | <p>PERSPECTIVES</p> <p>Piqueras M
<u>More about Mrs. Darwin than about Mr. Darwin</u> 69</p> |
| | <p>BOOK REVIEWS 75</p> |
