

Volume 12 • Number 2 • June 2009

REVIEW ARTICLES

Moscoso M, García E, López R
Pneumococcal biofilms

77

RESEARCH ARTICLES

Arrebola E, Cazorla FM, Codina JC, Gutiérrez-Barranquero JA, Pérez-García A, de Vicente A
Contribution of mangotoxin to the virulence and epiphytic fitness of *Pseudomonas syringae* pv. *syringae*

87

Trefault N, Guzmán L, Pérez H, Godoy M, González B
Involvement of several transcriptional regulators in the differential expression of *tfd* genes in *Cupriavidus necator* JMP134

97

Prado S, Montes J, Romalde JL, Barja JL
Inhibitory activity of *Phaeobacter* strains against aquaculture pathogenic bacteria

107

Martín-Urdiroz M, Martínez-Rocha AL, Di Pietro A, Martínez-del-Pozo A, Roncero MIG
Differential toxicity of antifungal protein AFP against mutants of *Fusarium oxysporum*

115

García-Rico RO, Chávez R, Fierro F, Martín JF
Effect of a heterotrimeric G protein α subunit on conidia germination, stress response, and roquefortine C production in *Penicillium roqueforti*

123

Martín R, Soberón N, Escobedo S, Suárez JE
Bacteriophage induction versus vaginal homeostasis: role of H₂O₂ in the selection of *Lactobacillus* defective prophages

131

Aranda J, Cortés P, Garrido ME, Fittipaldi N, Llagostera M, Gottschalk M, Barbé J
Contribution of the FeoB transporter to *Streptococcus suis* virulence

137
