Piqueras M

Year's comments for 2010 165

RESEARCH ARTICLES

Landete JM, Arena ME, Pardo I, Manca de Nadra MC, Ferrer S
The role of two families of bacterial enzymes in putrescine synthesis from agmatine via agmatine deiminase 169

Arias CR, Olivares-Fuster O, Goris J
High intragenomic heterogeneity of 16S rRNA genes in a subset of *Vibrio vulnificus* strains from the western Mediterranean coast 179

Aguado-Urda M, Cutuli MT, Blanco MM, Aspiroz C, Tejedor JL, Fernández-Garayzábal JF, Gibello A
Utilization of lactose and presence of the phospho- β -galactosidase (*lacG*) gene in *Lactococcus garvieae* isolates from different sources 189

Paternoster T, Défago G, Duffy B, Gessler C, Pertot I
Selection of a biocontrol agent based on a potential mechanism of action: degradation of nicotinic acid, a growth factor essential for *Erwinia amylovora* 195

Khan W, Bernier SP, Kuchma SL, Hammond JH, Hasan F, O'Toole GA
Aminoglycoside resistance of *Pseudomonas aeruginosa* biofilms modulated by extracellular polysaccharide 207

MEETINGS

Seeger M, Soubes M
Latin American microbiology at the independence bicentenary: the 20th ALAM Congress (Montevideo, 27-30 September 2010) 213
